## ONE STOP SHOP

An old cliché perhaps, but a 'one stop shop' truly sums GAP up perfectly. You can call by your local GAP depot and collect everything you need for the job such as windows, doors,

roofline, cladding, trims, fixings and sealants allowing you to save time and money, and get the job done.

## VAST PRODUCT RANGE

With many leading brands manufactured under the GAP umbrella including Homeline, Homeframe, Rockdoor & Cosmopolitan, not to mention other industry favourites such as Floplast, Soudal, Firestone, Zoom and Tapco, you won't need to look any where else.

## TRADE DISCOUNTS

Please ask us about our fantastic trade discounts which are available across our entire range of PVC-U building products. We also offer trade credit subject to terms and conditions. Prices shown in this product guide are 'list prices'.

100% virgin PVC-U skin

Recycled PVC-U core

Industry's 1st and only BBA approved recycled roofline from Homeline

Homeline is proud offer a range of environmentally friendly BBA approved recycled fascias, soffits and cladding which meet and exceed the industry's most stringent recycling and sustainability criteria.

Core features a virgin PVC-U outer skin with recycled PVC-U inner core, so the finished product looks identical to other rooflines.

ROOFLINE & CLADDING

**Our Grey Fascias explained**  
Both Dark Grey (Ral 7016) & Slate Grey (7015) feature a smooth finish making it suitable for use with PVC & Aluminium products.

HOW TO ORDER?

**STEP 1** First of all choose which colour of roofline you would like from the above selection.

**STEP 3** Each Foiled product code shown ends in .R (Rosewood), simply switch this letter and insert the new codes as shown above.

I.e. to order a 175mm 16mm Fascia Board in Irish Oak the code will be GSF175.IO

**STEP 2** Check that the product you require is available in the colour you have selected. You can check this by looking for the asterisk (\*) next to the code.

**STEP 4** Order your matching Polytop Pins or Nails from PG 18.

grey is the new black

## TUDOR BOARD

Designed by Homeline, our grained Tudor Board with two foiled edges provides the ideal solution for the replacement of old rotten Tudor Boards found on traditional Victorian style properties. PVC-U Tudor Boards are also proving hugely popular in both New Builds and Refurbishment projects.

FRENCH DOORS

Rockdoor French Doors feature levels of style, security and thermal efficiency unseen in the replacement door market until now. With Secured by Design as standard and an unbeatable U-Value of 1.2 w/m<sup>2</sup>k, Rockdoor French Doors lead the way.

\* All sizes quoted with 70 Frame with Low Aluminium Threshold.

heat SHIELD

Doors are prone to high levels of heat absorption which can often cause problems. Rockdoor however has the solution called Heat Shield technology which is standard on all Woodgrain & Coloured Rockdoors. Heat Shield reflects all of the NIR rays of the sun helping to keep the doors surfaces cool.

**COLOURED DRIP BARS**  
Choose a colour matched Drip Bar to perfectly complement the colour of your door. We recommend a colour matched Drip Bar for all stable doors.

**MIX & MATCH**  
Rosewood, Irish Oak, Mahogany & Light Oak Rockdoors are available in matching outer frames (as shown) or White. Colours shown are available both inside & out.

30 MINUTE FIREDOOR

Rockdoor manufacture a bespoke 30 minute accredited Firedoor in a pre-hung fire door set, helping general builders, house builders and contractors to meet building regulations.

Attributes for which Rockdoor is famous including strength and security are present in the 30 minute Firedoor, with each door being hand finished to ensure every Firedoor meets and exceeds the relevant certification and regulations. Rockdoor Firedoors are available in a choice of 6 external colours and 4 styles.

**PLASTISOL COMPOSITE STEEL PANEL**

**DESCRIPTION**  
0.7mm leathergrain Plastisol coated steel bonded using 1 part moisture curing polyurethane adhesive to both sides of extruded core.

**U-VALUES**  
Panels 20mm overall. U-Value= 1.18 w/m2 k  
Panels 24mm overall. U-Value= 0.97 w/m2 k  
Panels 28mm overall. U-Value= 0.85 w/m2 k

**PRICE**  
Plastisol Composite Panels standard colours **£99.00 m2**  
Plastisol Composite Panels ply standard colours reinforced **£110.00 m2**

**Max Panel Sizes:** 2400 x 1220/1250

\* Subject to stock. All colours shown are representative of product.

CONSERVATORY ROOF SYSTEMS

ZOOM is one of the most advanced Conservatory Roof systems available in the UK, providing many impressive features, benefits and patented innovations.

Easy and fast to install, ZOOM enables installers to offer homeowners an attractive, high performance and leak-free roof.

Features Of Zoom Conservatory Roofs:

- No more glazing slips thanks to patented glazing stops
- System design for a one man fit
- Deep flow box gutter
- No more leaks thanks to patented system
- Minimal silicone required
- Limitless design options
- Fast fit radius to hip bar
- Fully on-site adjustable
- Simple jack rafter assembly
- One eaves assembly
- One ridge suitable for different pitches
- Only one size of fixing nut
- Internal cladding trims
- Concealed tie bar fixing point
- Choice of finials and cresting
- Bolster bar increasing roof span

| 27.5 to 30 degrees (fully boarded or felt & battens)        | 7" (178mm)   | 19                        |
| Above 30 degrees (fully boarded or felt & battens)          | 7.5" (191mm) | 18                        |

\* The minimum recommended pitch and lap may be influenced by special circumstances, please contact our technical department for advice.  
 Note: Advice from our technical department should also be sought when installing on high buildings and/or in exceptionally windy areas.

Firestone Rubbercover from GAP, is a one piece membrane that can cover most flat roofs without the need for joints in the material. This innovative replacement system makes felt roofing a thing of the past. (It's also far cheaper for insurance purposes - due to no hot flame).

ROOFING

**Features**

- Lightweight, easy and safe to handle with a minimum 30 year design life.
- Easy to form over a range of roof profiles.
- No potential hazards for installers and no contamination of run-off water.
- 6% the weight of code 4 lead.
- Integral self-adhesive backing eliminates the risk of wind uplift which might allow water penetration.
- Corrugated finish – designed to allow for easy stretching around complex shapes such as roof tiles and corners.
- Embossed finish – designed for applications requiring less shaping such as pitched roofs.
